

## **WRAFT**

### **Search for new Director**

**Over the year ahead CAPTR/WRAFT are facing an uphill battle in our effort to convince the Liberal government of the need for a fair and stable residential property tax system in Ontario. To do so we must do a better job of telling our story to the media, the public and ultimately the government. We are therefore looking for a candidate for Director who can provide leadership in our communications/public relations efforts. The individual, who is currently a member of one of our member associations and a cottage owner, will have a background in public relations and an interest in our ongoing efforts to achieve property tax reform. He or she will have time available to work with the Executive Director and the Board to develop a program to build greater awareness with the media, the government and the public of the inequities in the present system and the need for change. This is a volunteer position.**

**If you are interested or know of a possible candidate please contact me at 416 929 9885 or [wraft@sympatico.ca](mailto:wraft@sympatico.ca)**

**Bob Topp, Executive Director  
Waterfront Ratepayers After Fair Taxation**
